DETAILED ACTION

Response to Amendment

1. In response to the Office Action mailed December 15, 2005, applicant has amended claims 1 and 2 and added new claims 5-7, without adding new matter.

Allowable Subject Matter

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: applicant's arguments regarding the differences in the power correction factor for the n-th frame are persuasive. The power normalization function of the prior art (as argued by applicant) is based on the power levels at the respective ends of the vowel segments in a phoneme and an average power of the vowel in the respective adjacent segments, and that the power levels of the vowels away from each end of the phoneme and the power level of the consonant are not considered in the calculations of the power normalization function for the phoneme and does not effect the overall waveform, as does the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
